

Taladro broca (guía) 1/8"  
 1/8" Drill bit (guide)

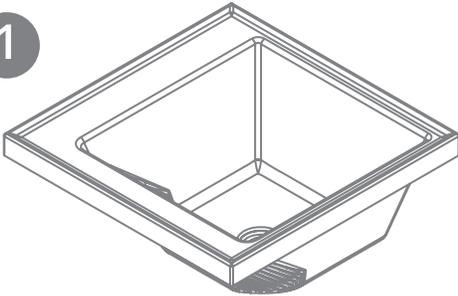

Broca cierra de 1 1/4"  
 1 1/4" cup saw

Lija grano 60  
 60 grit sandpaper

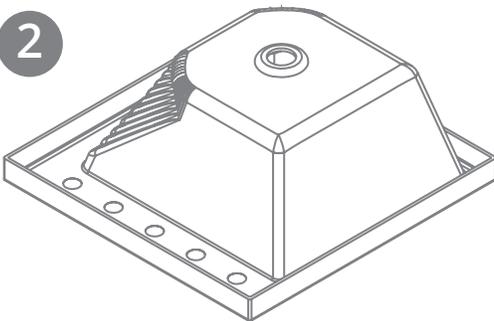

1

Para perforar el lavamanos a 4" o 8".  
 \* Lavarropas vista superior.

To make faucet perforations on the sink for 4" and 8".  
 \* upper view of the laundry sink

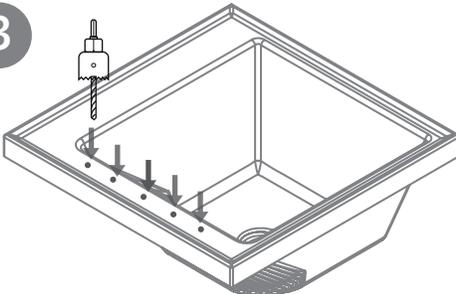

2

Haga una pequeña perforación solo con la broca guía, buscando el punto céntrico del orificio en el que desee instalar la grifería.  
 \* imagen del lavarropas por debajo.

Make a small hole using the guide drill bit, aiming for the center of the hole where you want to install the faucet.  
 \* Down view of the sink.

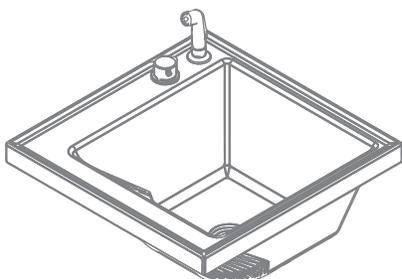

3

Perfore los orificios insinuados para instalar la grifería usando la copa sierra de 1 1/4". Esto se debe hacer con el lavarropas hacia arriba. Este proceso se repite para las perforaciones que la grifería requiera.

Drill the holes guided by the marks made by the drill bit, using the 1 1/4" cup saw. This should be done drilling the front side of the lavarropas sink, repete this process for the othe holes required for your faucet  
 \* Isometric view of the sink.

4

Se procede a instalar la grifería después de haber perforado perfectamente el orificio. (Lavarropas con grifería instalada).  
 \* imagen del lavarropas lateral.
